

We wish to register our disapproval of Commissioner Powell's intent to change the current laws regarding Broadcast Ownership. The ownership of TV, newspapers, and radio is just a few hands demolishes democracy as free discussion of issues is severely diminished. This exists to a great extent already - look at the coverage of the war in Iraq which was so one sided that a true report has yet to be filed on US airwaves. To further diminish what is already diminished flied in the face of the Constitution and free speech.
